

ARES

FAMILY

PRODUCT STORY

The ARES Chair is no ordinary plastic chair. It's extraordinary strength is due to the entire chair being one-piece injection moulded polypropylene, the legs reinforced with glass fibre for even more stability. The plastic is packed with UV stabiliser, so this chair will not fade or go brittle even in the sunniest weather conditions. The Ares Chair is built to last in busy commercial indoor or outdoor use.

OPTIONS

Anthracite, Black, Chocolate, Taupe and White.
Available with arms rest and in a bar stool option.
