

QUANTUM

FAMILY

PRODUCT STORY

The QUANTUM round is a 12 PAX banquet table maximising the number of guests in your event space. The table is constructed with a cardboard honeycomb inner support by a timber infrastructure. This design keeps the table light for set up staff and is in stark contrast to other solid chipboard or MDF tops sold by other companies. Quantum is ideally suited to hotels, clubs, churches and other event and conference spaces.

OPTIONS

Powder coat and laminate options. Quantum is also available in a range of sizes.

DIMENSIONS

Height: 76cm
Width: 50cm / 61cm / 76cm
Length: 152cm / 183cm

FABRICATION

The top is fabricated with a cardboard honeycomb inner with a timber frame supported top and bottom by a laminate finish.

Legs are finished in either powder coat or chrome. To protect the environment Innova Group does not recommend chrome.

FINISH

Powder coat or chrome legs. Laminate colour options.

WARRANTY

5 Years.
